**THE BEST COMBINATION OF DURATION AND COVERAGE IN THE INDUSTRY**

We build UTVs at American LandMaster with the intention of our customers never needing to use a warranty, but we know things can happen. The **Easy Life Warranty** from American LandMaster is a 12-month bumper-to-bumper limited warranty. Does limited sound confusing? It isn't. **As long as you care for your machine like you should, don't wreck it, or crush it, or let it be attacked by unruly farm animals, we're going to cover it.** Except for tires, brake pads, batteries, damage, neglect. That's the limit. [Visit AmericanLandMaster.com](http://AmericanLandMaster.com) to learn more.

**LOCKING DIFFERENTIAL ADVANTAGE**

Conditions can change in the blink of an eye. The trail you drove in on this morning can become a swampy bog after a downpour. The truth of the matter is that a lot of people don’t need a four-wheel drive UTV for everyday use, but that doesn’t mean that traction control isn’t sometimes a concern. A locking differential ensures both rear tires are turning at the same speed to help keep you moving forward. When traction isn’t an issue, leave the differential open, allowing the rear wheels to turn at different speeds to reduce digging and rutting in gravel or on your yard.

**EXTRA SEATING**

Need to take a couple more people along? Any LandStar UTV can be equipped with the flip-seat conversion, replacing the standard poly bed with a steel bed and rear-facing flip seat. When not being used, the seat folds down into storage, allowing the steel dump bed to be used for cargo.
